CHEESE-MAKING IN NORTH CAROLINA.

There is on the slopes of the Alleghanies and Blue Ridge, and the table-land between those mountains, as fine grazing land as any in the world. That peculiar plant, the wild pea vine, flourishes with greatest luxuriance, and clover is abundant, growing spontaneously. The soil, generally a rich black loam, produces all the grasses equally as well as the New York or Ohio lands. The climate, never very cold in winter, always cool in summer, has all the characteristics necessary to the perfection of a grazing district. This is peculiarly true of Western North Carolina, where the two ranges come into one and spread out into a broad mass of table and mountain land.

These are no such wide, fertile valleys as that of the Shenandoah, but many equally as productive, of less extent, and the deficiency of breadth is made up by a soil of most astonishing depth and fertility up to the very tops of the mountains. We have seen on one of the most elevated peaks a field of timothy, nearly every stalk of which was over five feet high, and many reaching to seven.

It is in this region that the first organized effort to manufacture cheese has been made. It is true that one and another of the country farmers throughout the South had for years in a rude way made a stuff not deserving the name, but in the census reports called cheese. Since the war, the attention of the people has been turned to the development of many resources heretofore unthought of, or considered of too little consequence. Hon. N. W. Woodfin, one of the best farmers as well as most prominent men of that section, had for many years entertained the opinion that systematic manufacture of cheese and butter would not only pay, but was the especial industry for that section. The raising of mules, horses and cattle had been a great source of revenue to him and his neighbors, and he had demonstrated to his satisfaction the adaptation of soil and climate to all the most valuable grasses. During the year 1867, Mr. Woodfin visited the dairy farms and cheese factories of New York and Connecticut; he saw no soil equal to his own no grass superior if as good, as he could produce. With every ability for investigation or collection of information afforded him by his friend, Governor Seymour, he thoroughly informed himself of all the requisites for the production of good cheese, and concluded that no better location in this country could be found for such a purpose than near the town of Asheville. He immediately contracted with the superintendent of one of the factories near Utica to go South with him and if the location suited, to put up all necessary buildings and fixtures, and furnish a sufficiency of expert hands. Mr. Edwards went, was delighted with what he saw, came back to Utica, and hiring such hands as he needed, returned. The factory was gotten ready barely in time for the spring milking. Drawing their stock from the surrounding country, they had to buy many poor milkers to get a few good ones. They bought two hundred and fifty cows, and culled them down to one hundred and twenty-five, fattening the rest and selling for beef. In the commencement of this new business, and in a thinly settled country, it was impossible to get a supply of milk from the farmers. Many sneered at the innovation. The factory and farm was popularly termed "Nick's Folly" from the given name of the honorable gentleman who initiated the enterprise.

From the first year's operations they cleared profit enough to repay them all construction expenses, the cheese selling at the factory almost as fast as made. This the first cheese-factory of the Southern States, is called Elk Mountain Factory, and is located about three miles from Asheville, Buncombe County, N. C. The past year has witnessed the erection of another on that poet's Indian river, Swannanoa. There is still room for hundreds more, and as the consumption of the article manufactured meets with a steady increase, there is no danger of rivalry between the North and South on this point.—*Hearth and Home.*

THE TOWER OF BABEL.—A writer describes the present appearance of the place where languages got mixed: "After a ride of nine miles, we were at the foot of the Bier Nimrood. Our horses' feet were trampling upon the remains of bricks which showed here and there through the accumulated dust and rubbish of ages. Before our eyes uprose a great mound of earth, barren and bare. This was Bier-Nimrood, the ruins of the Tower of Babel, by which the first builders of the earth had vainly hoped to scale high heaven. Here also, it was that Nebuchadnezzar built, for bricks bearing his name have been found in the ruins. At the top of the mound a great mass of brickwork pierces the accumulated soil. With your finger you touch the very bricks—large, square-shaped, and massive—that were throughly burned, the very mortar, now hard as granite, bandied more than 4000 years ago by earth's impious people. From the summit of the mound, far away over the plain, we see glistening the gilded dome of a mosque, reflecting the bright rays of the morning sun. This was the tomb of the holy Ali. To pray before this at some period of his life; to kiss the sacred dust of the earth around there at some time or other; to bend his body to count his beads, is the daily desire of every devout Mohamedan."

THE EVENING STAR OF LIFE.—The evening of every man's life is coming on apace. The day of life will soon be spent. The sun, though it may now be up in mid heavens, will pass swiftly down the western sky, and disappear. What shall light up man's path when the sun of life has gone down? He must travel on to the next world, but who shall illumine his footsteps after the nightfall of death, amid the darkness of his journey? What question is more important, more practical, more solemn, for each reader of our journal to ask for himself? That is a long journey to travel without light, guide, and without a friend. Yet every man must perform it. The time is not far distant when all must begin the journey.

There is an evening star in the natural world. Its radiance is bright and beautiful, and cheering to the benighted traveller. But life's evening star is found in a good hope of heaven. Its beauty and brilliancy are reflected from the sun of righteousness, whose bright rays light up the evening of life, and throw their cheering radiance quite across the darkness of the grave into Immanuel's land. It has illumined the footsteps of many a traveller to eternity. It is the light of life. It is of priceless value. A thousand worlds cannot purchase it; and yet it is offered, without money and without price, to him who will penitently and thankfully receive it.

Good Advice.—Hon. Ben. H. Hill, of Georgia, in a late letter, says: Towards the colored race, let us redouble our efforts to be just, kind and forbearing. They are not the authors of our wrongs. Nine out of ten of them wish to do right. I doubt whether the same number of any other color or race of the human family could pass the same ordeals through which they have passed, during the last four years, and do as well as they have done. With a few wicked or deluded exceptions, they will join us in bringing contempt on all these Congressional iniquities and on their authors.

KEROSENE LIGHTS PERFECTED!

DANFORD'S

Atmospheric

KEROSENE LAMP.

THE ONLY PERFECTLY SAFE LAMP IN USE.

Artificial Light, of some sort, is a universal necessity; a safe cheap, and brilliant one is a luxury; a luxury, too, only enjoyed heretofore by those living in large towns or cities where Gas is used. Years of study and thousands of dollars annually have been spent by experimants of different kinds, in trying to invent and perfect a Burner or Lamp by which Coal Oil or Kerosene could be burned practicably, without the expense and trouble of chimneys; this long looked for and much desired subject has at last been obtained, and is styled the

ATMOSPHERIC KEROSENE LAMP!

Its adaptation to Dwellings, Churches, Railroads, Steamboats, Hotels, Stores, &c., is unsurpassed; in short, this invention brings the luxurious and brilliant Gas Light within the reach of all, whether in the City or Country. It gives the light of a six-foot Gas Burner, for less than one cent per hour, or double the quantity of light, of the ordinary glummey lamp; with one third less oil will burn, when turned down to a taper light can burn for one cent; is free from smoke or smell; can be carried from room to room; the wind will not blow it out.

The Lamp is calmed to supersede all portable artificial light or chimney lamps now in use as needs only to be seen to be appreciated; thousand of them will find sale in every county in family that wants this light for one evening will again be annoyed with the chimney-lamps. Thousands of them will be used in cities, as this light is one half cheaper than Coal Gas, and much more pleasant to the eye.

The sole right for the sale of this Lamp can be had for the entire State or the same will be sold by Counties.

Parties purchasing will be supplied, at wholesale, with the lamp and fixtures at reasonable Rates.

Immediate application should be made to secure the choice of Counties.

The Lamp can be seen in full operation during the day and evening at the Yarbrough House.

All letters will receive prompt attention and full explanation of the Lamp given.

SAW MILLS.

I AM PREPARED TO PUT UP DOUBLE CIRcular Saw Mills in workmanlike manner for those desiring them.

There are now 44 of these Mills in operation, and in no case have they failed to give entire satisfaction. One advantage of this mill is, that the sawyer, without changing his position, gives the log-ward and inward motion to the carriage, also a single lever; and set the log at both ends at the same time, (he is a sawyer of experience in the mill.) This is no humbug. I am responsible for what I say. My residence is 20 miles south of Raleigh, on Neuse's creek. For further particulars address me at Raleigh, N. C.

P. J. WRAY.

I will be at Lynn Adams' Store on the 22nd of the 5th of February, where persons desiring to see me will please call.

READ THE FOLLOWING.

Mr. P. J. Wray, Dear Sir:—I am much pleased with my double Circular saw Mill, built by you. I can cut a one-inch pine log, 20 feet long, in 15 seconds, with my 14 horse engine, which we have to-day cut 5,000 feet of rubber-boarding, shoring, and iron bound, in eight hours.

Dec 23rd 1869. A. L. MILLS FARM.

Mr. P. J. Wray Sir—We are well pleased with our new double action Mill, that you set to work for us. We can cut twice the amount of timber we could with the old Mill by the same saw and same water wheel.

P. YATES.
JAMES PENNY.

This last mentioned Mill may be seen on Walnut Creek, 5 miles South of Raleigh.

COL. WM. A. MOORE OF CHOWAN.

This Radical representative of the negroes of Chowan, in his "question of privilege," misrepresented what was said in the SENTINEL, and attempts to traduce the character of its editor. He says he made an assault upon us, on Monday, for an assault upon his character, but he omits to tell that he made the attack, armed, in company with his brother who was also said to be armed, and without giving us notice.—When we had him in a position to take his life in our own defense, his brother intervened and seized upon us and our pistol, and that he had his pistol drawn while we were thus held by his brother, and was only prevented from using it by the intervention of Mr. Brown and others.

He omitted, also, to tell, that in his account of the re encounter at Pepper's, not twenty minutes after the occurrence, a gentleman corrected his statement by saying, "Mr. Brown says you drew a pistol," to which Mr. Moore replied, "It's a d—d lie;" but it is true, nevertheless, that he had his pistol out while we had fallen on the steps, a position to which we had been forced by his brother. Mr. Brown, Mr. Heartt, and others are witnesses to what he denies, for they saw the pistol.

Col. Moore says that "on the 27th of November the SENTINEL charged that he was opposing the investigation of alleged frauds in the management of State bonds; and that on the 29th he stated that the SENTINEL was mistaken, and requested a correction of the statement, which the SENTINEL refused to make.

On the 27th November, the SENTINEL, alluding to the investigation, said, "We fear the House will not investigate the matter as it should; Mr. Moore of Chowan, by his quibbling questions, seems disposed to throw difficulties in the way." And why did the SENTINEL think so? Because, in the discussion of a motion to go into committee of the whole, that day, to investigate the alleged frauds, Mr. Moore opposed it. The report says, "Mr. Moore of Chowan thought the matter had better be postponed until next week, when they should have the report of the Superintendent of Public Works, together with the report of the various Railroad Presidents before them, in acting in the matter. He moved to strike out 'I o'clock to-day,' and insert 'Tuesday after the first Monday in December next.'"

But his amendment did not prevail, and the House went into Committee of the Whole. Here are some extracts from the proceedings of the Committee: After Treasurer Jenkins had been summoned before the Committee, and answered some questions as to what amount of bonds had been issued since July 1st 1868, &c.,

"Mr. Durham asked, Has any interest been paid on any of those bonds, if so, to whom, and to what amounts?

Treasurer, I can hardly answer the question without giving the details of all my ——

Mr. Moore of Chowan, Stop Mr. Witness, I insist that every word of your answer shall be in writing.

Treasurer. Understanding that our bonds would be worthless, I obligated ——

Mr. Moore of Chowan raised the same objection.

Treasurer, Interest has been paid, but from the way of the transaction, I did not know whether I had paid ——

Again Mr. Moore insisted that the witness' answers should be in writing, in accordance with the rule just adopted.

Treasurer. It is impossible for me to answer the questions unless I can go into a detailed explanation.

Pending the examination, on motion of Sweat (colored) the committee arose, reported progress and asked leave to sit again."

And these are the reasons for our saying, "Mr. Moore, of Chowan, by his quibbling questions, seems disposed to throw difficulties in the way" of the investigation.—Let it be remembered, this consumption of the session retarded investigation, and at the next meeting of the committee *Littlefield was gone*. People can draw their own inferences, we drew ours at the time.

Let us now see if Mr. Moore's subsequent course justified the inference we had drawn.

On the 1st of December, in the House.

"Mr. Pou moved to suspend the rules in order to take up the bill enforcing the attendance of witnesses upon the investigating committees, and fixing penalties for perjury.

Mr. Chandler said, he was opposed to the bill, because there were only five or six of the committee present when the bill was considered. He was the only one present [at the meeting] that opposed the bill.

Mr. Moore, of Chowan, raised the point, that if only a minority reported upon the bill, it was not before the House properly.

Mr. Durham—Are you opposed to the passage of the bill?

Mr. Moore—I wish the bill to be acted upon by a majority of the committee.

Mr. Durham repeated his question.

Mr. Moore returned the same answer.

The rules were suspended when J. H. Harris, (col.,) moved to recommit the bill to the committee on Judiciary.

Mr. Welch (to Mr. Moore)—Have you attended a meeting of the committee, either last session or this, when there was a quorum present?

Mr. Moore—No sir; but that is no reason why it is not just and proper that a majority of the committee should consider this bill. He continued by saying, he would never consent to the 1st and 2nd sections of the bill. He was willing to vote for the third, if it be so guarded as to apply to private individuals. He considered the provisions of the 1st and 2nd sections as surrendering the privileges of the House, and the 3rd section, if construed in its broadest latitude, as attacking the privileges of the co-ordinate branches of the Government.

On motion of Mr. Downing the House adjourned.

The following is a synopsis of the bill which Mr. Moore so strenuously opposed.

Sec. 1st. That any committee of investigation, either by joint resolution, or by resolution of either House of this General Assembly, shall have power to send for persons and papers, and to enforce their attendance by atchment or otherwise, under such rules and resolutions as they may adopt.

Sec. 2nd. That any person failing to attend on summons, shall be guilty of a misdemeanor, and, on conviction, fined not less than $500.

Sec. 3rd. Gives the Chairman power to administer oaths.

Sec. 4th. Makes false swearing perjury, subject to imprisonment in the Penitentiary.

Further Col. Moore opposed and made two speeches against Malone's resolution to telegraph for Littlefield and Swepson, and moved to postpone it until after Jarvis's bill repealing the tax clauses in the appropriation bills should be acted on, saying, if the latter passed, there would be no necessity for the passage of the former! It is true, when he found he had gone further for the "Ring" than the House would follow, he voted against his own motion to postpone.

Now, we ask the reader, if our "moderation did not appear unto all men," when we characterized Mr. Moore's action on the subject of investigation as "quibbling," and saying he seemed to be disposed to "throw difficulties in the way of investigation?" We really fear that Dr. Yates will condemn our "moderation" on the subject.

It is true Mr. Moore sent us a statement denying that he was opposed to investigation, but his statement simply contradicted his own actions—his votes and speeches.—We were absent at the time his statement was sent, and our Local, not crediting the statement, refused to publish it; in which he acted exactly right; had we been at the office at the time we should have done the same.

Mr. Moore says he is charged in the SENTINEL of February 2nd, of voting against Mr. Malone's resolution to summon Littlefield and Swepson, while, in truth, he voted for it. We did say that Moore and Sinclair voted against that resolution. In justice to ourself, not Mr. Moore, we acknowledge we were mistaken in the matter, and it was very reasonable we should be. Moore had opposed the resolution, made two speeches against it, as said before; he and Sinclair were the champions for postponing it, and it was perfectly natural to suppose he voted against it. It will be readily seen that it does Mr. Moore no great injustice to say he voted against the resolution after all he had said and done against it. It is plain he had the mind to do so, but dared not.

Mr. Moore, in his explanations, under a "question of privilege" says he "is opposed to the sale of the State's interest in her works of internal improvement, and that he has so told Mr. Barnett, the author of the bill." He complains that we charge him with favoring it, in which he says we "lie." There is no argument in this last sentence, except to the base and vulgar. He denies what we did not charge, but had we charged him with favoring the sale of the North Carolina Railroad, we might justly appeal to the record to bear us out in it.

We quote from the House proceedings of Nov. 30th:

"On motion of Mr. Barnett the rules were suspended and the bill for selling the State's interest on the N. C. Railroad was taken up.

Mr. Barnett moved to refer it to the Finance Committee.

Mr. Seymour moved its indefinite postponement.

Messrs. Moore of Chowan and Stilley *favored the reference*, which finally prevailed.

If opposed to it, why not indefinitely postpone it? He may be opposed to it now, but it certainly looks like he was not on the 30th of November.

We tell Mr. Moore, that Littlefield and his carpet-bag and scallawag allies are public corrupters and public extortioners. They have stopped the tide of public prosperity and turned it into the private channel of their own pockets. They have robbed the Treasury, bankrupted the State and ruined her credit. They have retarded and set back the progress of her public works for twenty years. They have oppressed and robbed the people of their property, privileges, rights and liberties. Neither their friends, defenders or associates can defame us. We treat with contempt or laugh them to scorn, when they call us "liar." We might retort and give epithet for epithet, but we prefer to point out the conduct of such men and hold them up to the scorn, derision and condemnation of an outraged people. We shall not be diverted from our course of exposing the actions of those who are revelling in the ill gotten gains wrung from the suffering people, nor cease our labors on account of the wailings or hagglings or threats or vulgar denunciations of those our shafts may gall.

SUPREME COURT.

[Reported for the SENTINEL by the Deputy Clerk of the Supreme Court.]

Thursday, Feb. 10th.—Court assembled at the usual hour; all the Justices present, except his Honor Justice Settle.

The case of William Biggs, *ex parte*, was called, it having been set for hearing this morning.

Mr. Graham opened the case by reading to the Court the petition of Mr. Biggs. The petition recites the facts of the case, sets forth a record of the proceedings in the Court below, and concludes with a prayer that the Supreme Court issue an alternation *mandamus* commanding Judge Jones to restore Mr. Biggs to his privileges as an Attorney.

Mr. Graham and Mr. Moore argued the preliminary question as to what is the proper remedy in the matter—contending in brief, that the petitioner had no right either at common law or by statute, to appeal from the order disbanning him, nor to sue out a writ of error nor a writ of *certiorari*; and therefore, that his remedy is a *mandamus* from this Court to the Judge below.

The learned counsel did not enter at all upon the merits of the case, but confined themselves entirely to the preliminary question of law.

His Honor the Chief Justice stated that the decision of the Court would be announced at some subsequent day.

The following cases were called and argued, to-wit:

Parker and Gatling *vs.* William H. Smith from Halifax. Batchelor for plaintiff, Walter Clark for defendant. Clark being absent, Barnes read his brief to the Court.

Russell H. Kingsbury *vs.* E. B. Lyon *et al.* from Granville. Bragg for plaintiff, no counsel for defendant.

J. M. B. Hunt *vs.* William M. Snoed, *et al.* from Granville. Graham for plaintiff. Bragg for defendant. The argument in this case will be concluded to morrow.

At 1:30 P. M. Court adjourned until Friday 10 A. M.

ALL THE DECENCY PARTY.

BUFFALO, February 4.—Immense excitement was occasioned this afternoon all over the city, at a direct statement made in the Commercial *Advertiser*, a leading Republican paper, to the effect that D. S. Bennet, member of Congress from this district, had obtained eighty or ninety thousand dollars from banks, on receipts from the Elevating Association, for grain stored in his elevator belonging to said Association; then privately selling and moving said grain from the building. The *Commercial* also charges Bennet with paying insurance on such grain for months, when there was no such grain there. The *Commercial* also says the discovery of these transactions caused Bennet's speedy return from Washington to settle with the Association and the banks.—*Phila. Age.*

THE WISE LIFE INSURANCE CASE.—The case of Harriet H. Wise *vs.* The Mutual Benefit Life Insurance Company of New Jersey, in which an action was brought by the plaintiff to recover the amount of a life insurance for $20,000 upon the life of the late Rev. Henry A. Wise, Jr., pending in the Superior Court, was on Saturday removed to the Circuit Court for Howard county. It will be remembered that the company refused to pay the amount of the policy on some allegation concerning Mr. Wise's ill health when insured, and his having been refused insurance in another company previously; which fact it is alleged, was not known to or was kept from the knowledge of the Mutual Company when the now disputed policy was issued. The company, however, has not put in any plea as yet further than that of a want of jurisdiction by any Maryland court.—*Baltimore Sun, 7th.*

FIRE IN FAYETTEVILLE.—We regret to learn that a fire occurred in Fayetteville on Thursday night last which destroyed the Store of Col. John A Pemberton, with the goods contained in the same. No doubt exists that it was the work of an incendiary, as some of Col. P.'s friends, while passing the store just previous to the discovery of the fire, heard some one in the building and went to the Colonel's house and informed him of the fact; but before they could get back the store was in flames. The building belonged to R. W. Hardy, Esq., late Sheriff of Cumberland. We are not informed as to the extent of the loss sustained by Col. Pemberton, but learn that there was an insurance of $10,000 on his stock.

GEORGIA POLITICS.

MACON, GA., Feb. 7.—Great indignation is manifested by the people over the statement of the *Intelligencer*, a pretended Democratic paper, that they endorse the designs of the Bullock faction. The *Intelligencer* is in the pay of Bullock. The people ask Congress to give them the benefit of a fair construction, and save them from plunder and ruin. The people ask Congress to carry out their own act in good faith.

New Ads.—Valuable farms for sale in Lenoir and Craven counties, W. A. Blount, Kinston.

Lynn Adams buys cotton and gives the highest prices for all country produce, and offers a variety of useful goods, seasonable at all times.

Douglas Bell's guano advertisement, cross-ways.

Withdrawal.—We are requested by Mr. Daniel W. Courts to say that he has severed his connection with the Globe Mutual Life Insurance Company of New York, and will, in a few days announce his connection with another Company.

The "Greenwood Club," near Durhams, return thanks to Hon. John T. Deweese, for a valuable contribution of Agricultural Literature to the club.

A Suggestion to the Legislature.—The pious Colonel fighting parson Sinclair says he is "posted" on the subject, and that for every Republican who has been implicated in bribery and corruption, he can find two Democrats who have "actually received bribes." We suggest that he be forthwith summoned before some of the numerous investigating committees and made to tell what he knows; and while he is at it, let him tell about that present of a horse from Swepson, and the payment of that Hotel bill by Littlefield. It will take two bribed democratics to offset that, according to his own proposition.

Social Equality.—An incident was related to us yesterday, which shows the disposition on the part of some to establish social equality between the two races; a thing that has been so often and so vehemently denounced by both white and colored of the Republican party, when they have been charged with intending to inaugurate it in the South.

One carpet-bagger by the name of Kimball, went into a restaurant in the city in company with a colored friend of his, and called for "crackers and cheese" for two.—He was told by the Clerk that colored people were not allowed to sit at the tables in that establishment, whereupon Kimball asked for a private room, took his plate of bread and cheese and, with his colored friend retired, where they both sat down and lunched from the same plate, as lovingly as two kittens. So we are told.

This Kimball, we believe, is one of the Governor's secret detective force.

What would brother Pike think if brother Yates of Charlotte or another brother, not quite so far away as Charlotte, should make his appearance in Raleigh, in a day or two, in order to make arrangements for starting an opposition Republican paper?

The North Carolina Citizen is the name of a new weekly paper started at Asheville, by R. A. Shotwell, Esq., who is a spicy writer and will make the citizen a first class paper. His politics are Conservative.

Fire.—The dwelling of Col. John W. Atkinson, of Wilmington, caught on fire, on Tuesday, but the flames were arrested by the prompt action of the fire companies, not, however, without considerable damage to the building.

Catarrh.—The origin of Catarrh is in most cases *A neglected Cold*, which can be relieved by the use of "*Brown's Bronchial Troches*," by soothing the irritated and inflamed membrane extending from the nose to the throat. For Coughs and Throat Diseases the Troches are of great service.

Plows.—We learn that Mitchell, Allen & Co., of Newbern, N. C., have procured Steel Cotton Sweeps, made from the original patterns of David Dixon, Esq., of Georgia, they charge $5 for each, when stocked $7.

This firm is selling a large quantity of plows manufactured by themselves. They sell No. A. 8, 10, 11, and 50 plows at 2.50. Would it not be well for farmers to club in each neighborhood and order together so as to get the freight cheap. Mitchell, Allen & Co., have the agency for the Foster Cotton Planters, and every variety of agricultural implements. dlm.

Rumor Early.—We regret to learn that this venerable and beloved divine was so critically ill during a part of the day Saturday that serious fears were entertained of the result. His condition, however, was much better Saturday night.—*Lynchburg Virginian.*

NOTICE OF APPLICATION.

Notice is hereby given that application will be made to the Legislature now in session, for an Act to incorporate the People's Building and Loan Association, of the City of Raleigh.

January 1870.

For the Sentinel.

Mr. Editor:—As a General rule I feel inclined not to notice what may be said in the papers, in the present excited state of society, but I feel that I owe it to my friends to make a correct statement of a matter mentioned in your paper of the 10th inst.

You say that "somebody said that Dixon Ingram was fearfully kicked," &c. The *Argus*, from which I suppose you take the above, says, "Dixon Ingram, we learn, was fearfully and painfully kicked." Now, Mr. Editor, I simply say the above statements are not *true*.

I was insulted by a young man, a Radical, who was drunk at the time, who, I believe, kicked *at* me but did not touch me; and, knowing no better way to treat such cases than to go on and attend to my business, I did so on that occasion.

What the upsetting of the stage has to do with the above I cannot tell. [Here the letter makes allusion to persons who were passengers on the stage; not at all pertinent to the subject of the kicking, hence we omit that part of it.]

Signed,
D. INGRAM.

We cheerfully insert the above correction of the statement about the kicking; and congratulate Mr. Dixon on the fact that while, "going on and attending to his business," he went so fast as to get out of reach of the boot or shoe, whichever it was, of his Radical friend, and that consequently, he was only *kicked at*, instead of being actually kicked. He had better success in "going on and attending to his business," than his friend Farries had at Louisburg, last Fall. *He* went fast enough after he started, but the difficulty was, he didn't start soon enough.

Keep Your Hands Out's Mr Pocket.—Mr. Smith, of Wilkes, voted, last session, to donate to the Reporters of the Sentinel and *Standard* $100 each ($400) *to be paid out of the public Treasury*,—voted away $400 of the people's money without even a grunt. But circumstances alter cases. On yesterday his peer, A. H. Galloway, (col.) Senator from New Hanover, introduced a resolution proposing to pay the Reporters of the two Daily Papers of this city $100 each out of the *per diem* of members, when this same Mr. Smith, who delighted in voting away the money of the burthened tax payers of the State relieved himself of the following *speech*:

"Mr. President, it is my opinion that it is a great wrong for the Senate to entertain such foolish resolutions; it is simply contemptible and insulting."

In the language of a certain orator, "a sudden change has come over his dreams."

Mecklenburg County, N. C.,
February, 10, 1870.

Hon. Josiah Turner, Jr., Editor Sentinel:

Sir—I saw in your paper a short time ago, a communication from one of your Granville friends, complaining of the excessive charge of the Commissioners of that delectably represented county, stating that it was upwards of four thousand dollars for twelve months. Now, I have not a doubt but that these Commissioners ran on the Kildee, Cuffee and Ragland ticket, and like them unfit, either for want of capacity or honesty, for their office.

In this county, the size and population of which you know and those which the financial affairs of none in the State are better managed, its bonds being worth $85 on the $100, Messrs. Vail, Chairman, Oates, Reid, DeArmand and King, from August 1868 to January 1870, charged for services as Commissioners, only $963 28 being less than one fifth below what these Radical, I presume, Granville men had.

Would not the people of Granville save by employing one of our honest and competent Commissioners to go down and attend to their matters?

CONSERVATIVE.

Burnt her Child Up.—A negro woman named Minerva and who we think was once the property of old Major Russell, has "cut stick" from the neighborhood of Prospect Hill through fear of arrest for burning up her own infant child. The deed was done sometime in last December.—*Hillsboro Recorder.*

What does Reason say?

The little mongoose when bitten by a deadly serpent resorts to a certain plant eats of it, and escapes the effect of the poison. That is instinct. Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now, what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies let your monitor be experience. Well, the experience of eighteen years comprised in one unbroken series of satisfactory testimonials assures us that Hostetter's Stomach Bitters possess strengthening, regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant. This therefore is the antidote to which reason bids us resort when our health is imperilled either by the malaria which produces epidemic disorders, or by any other cause, whether inherent and constitutional or connected with our habits, occupations and pursuits.

The venom of a noxious reptile is scarcely more subtle and dangerous than that which lurks in foul air and impure water. To escape the fevers, bilious disorders, disturbances of the bowels and other serious maladies produced by these insalubrious elements it is absolutely necessary that the stomach and all the secretive organs should be, so to speak, in a robust condition. Upon the amount of resistance which the vital system can oppose to the deleterious influences that assail it, the safety of the health depends, and it is because the Great Vegetable Invigorant imparts energy and regularity to the most important functions of the body, that it can be recommended and guaranteed as an invaluable preventive medicine.

Pratt's "ASTRAL" OIL.

UNLIKE MANY OTHER ILLUMINATING Oils, is *perfectly pure*, and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliant light, and can be used with the same assurance of safety as gas. Chemists pronounce it the *best and safest* Illuminating Oil ever offered to the public; and Insurance Companies indorse and urge upon consumers the use of the "Astral" Oil in preference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. *To prevent adulteration*, the "Astral" Oil is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited. Every package with unbroken seal we warrant. Be sure and get none but the genuine article, Pratt's "Astral" Oil, for sale by dealers everywhere, and at wholesale and retail by the proprietors.

Hobby is about 22 years old light complexion, no whiskers, almost flaxen hair, about 5 feet 10 inches high, and weighs about 140.

This article is much superior to the Peruvian Guano as a fertilizer. It contains a much larger percentage of bone phosphate and soda, and nearly as much Ammonia, its effects upon the land will be seen for years.

The following extracts from certificates received from those who used it last year upon Cotton will save the effect to remove the prejudice produced by the use of manufactured fertilizers, and give confidence in this home made article.

H. Leberman, Esq., of Bertie county N. C., writes: "I have used your Phosphate Fish Guano in equal quantities side by side with Peruvian Guano and found the produce much in favor of your article, the wood was larger, Cotton heavier and the plant kept green through the dry Summer."

J. J. Horton of same State, writes to the same import. Our circular for January 1870, contains these and other certificates in full.

MEDICAL.

HENRY'S
CARBOLIC
CONSTITUTION RENOVATOR,
OR
BLOOD CLEANSER.

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with other valuable medicinal herbs, and is guaranteed as chemically pure.

FOR THE CURE OF

SCROFULA AND CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all impurities, going at once to the fountain-head of disease. It extinguishes

Tumors, Consumption, Syphilis, Skin Eruptions Salt Rheum, Boils, Rheumatism, Waste of Vital-ity, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war bred the most villainous diseases. Vaccination pus was taken from the arms of many persons full of scrofulous sores.

Then of course the impurities of the scrofulous patient were absorbed in the blood of men otherwise without diseases, and both he same in color alike. Men, women and children throughout all the West are most woefully diseased from this cause, and know not, until a few months ago, the origin of it.

Henry's Constitution Renovator

Relieves the Entire System of Pain and aches, enlivens the spirits, and sends new blood

BOUNDING THROUGH EVERY VEIN.

It imparts a

Sparkling Brightness to the Eye,
A Rosy Glow to the Cheek,
A Ruby Tinge to the Lips,
A Clearness to the Head,
Brightness to the Complexion,
Buoyancy to the Spirits,
And Happiness on all sides.

For all affections of the kidneys it is unsurpassed.

People have been rescued, as it were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"Doctor, I was vaccinated in the hospital.—Before that I had no skin disease. Until I had a bottle of your "Constitution Renovator" sent me by Mr. Sasper, of Columbia, Mo., I suffered tortures with running sores since. I used two bottles I am all well except a small sore on the calf of my left leg, and that is getting well fast."

This from a lady.—'And now my skin is as clear and fair as a babe's. My complexion, thanks to your "renovator," is beautiful.

"Yes yes, I may well say such relief was unknown to me before. Although fifty dollars per box for it; two families here want me to try it."

"I was very much troubled with syphilis.—Your remedy seems to be curing me fast send 4 bottles per Express."

"No more rheumatism. Three bottles of Constitution Renovator have made me a new man."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator."

We have not space for more of the above extracts, but you can ask your neighbor about the remedy. Every one has something good to say, as it cures every time.

FOR ALL DISEASES OF THE KIDNEYS, RETENTION OF THE URINE, &c

And for Female Diseases,

Nervous Prostration, Weakness, General Lassitude, and Want of Appetite, it is unsurpassed.

CAUTION!—In ordering our remedy always place the number of our Post Office Box on your letters. The new law in our New York Post-Office compels this.

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern institution.

The DE SOTO has no desire to crush its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same field, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES H. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the usual plans and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or coastwise, in any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,43
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

Now what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,837 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars; had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
